

Cue Jump Mode (DennYo Cue Action Mode)

You can show the "Cue Jump Mode" on 2 Positions:

On "HOTCUES" only visible when "Jump" on

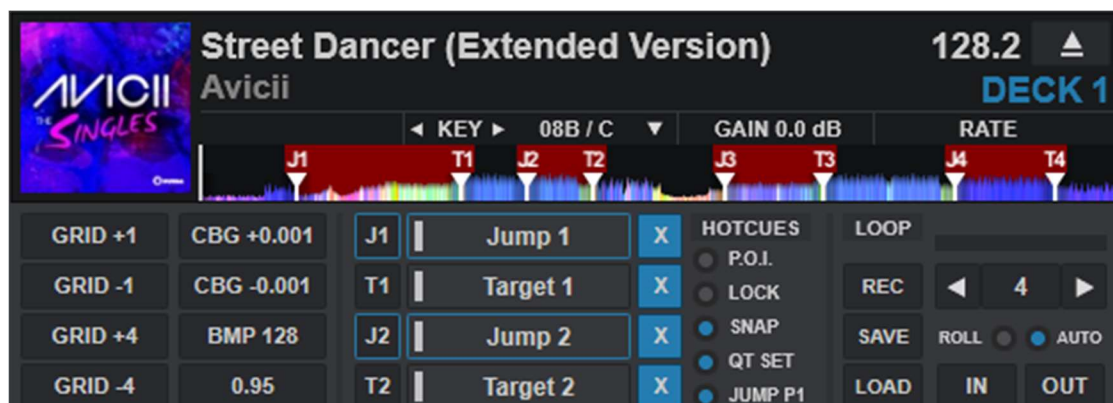

On "EFX" always visible

Activate the „JUMP“ Button (round dot) will change the HouCue 1-4 to Jump/Target 1 & 2.

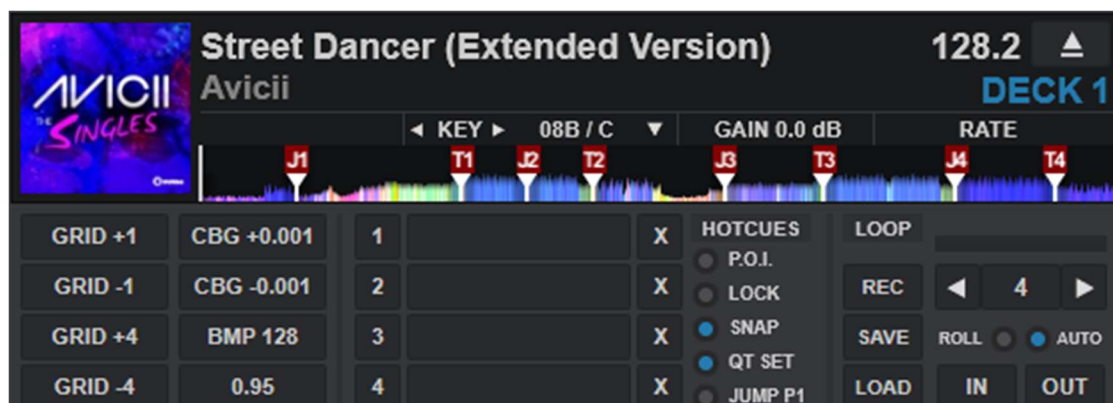

Click on the Word „Jump P1“ will move to Jump/Target 3 & 4.

Jump 1	CUE 101	Jump 3	CUE 105
Target 1	CUE 102	Target 3	CUE 106
Jump 2	CUE 103	Jump 4	CUE 107
Target 2	CUE 104	Target 4	CUE 108

When you set the Jump and the Target Point, the Track will skip the red mark zone in the Songposition Wave.

„J1“ jumps to „T1“ „J2“ jumps to „T2“ „J3“ jumps to „T3“ „J4“ jumps to „T4“

When you deactivate the „JUMP“ Button the Track doesn't Jump and will play full.

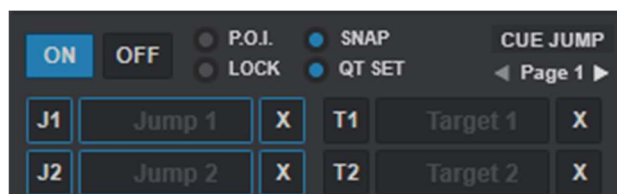

The “Jump 1” Button insert a Macro to CUE 101.
`var_equal '@%cueaction20' 1 ? goto_cue 102 : nothing`

The “Jump 2” Button insert a Macro to CUE 103.
`var_equal '@%cueaction20' 1 ? goto_cue 104 : nothing`

The “Jump 3” Button insert a Macro to CUE 105.
`var_equal '@%cueaction20' 1 ? goto_cue 106 : nothing`

The “Jump 4” Button insert a Macro to CUE 107.
`var_equal '@%cueaction20' 1 ? goto_cue 108 : nothing`

“Target 1-4” are named CUE Points (cue 102,104,106,108).

View on “EFX” function is the same.

Additional Info:

The Variable '@%cueaction20' to activate the “Cue Jump Mode” is local and works separately on all Decks.

Please use the sort 1-4. The presentation on the Songpos Wave will only work correct in this sort. The function works always.
